

ABOUT US

Clarence Park Community Centre Childcare is a not-for-profit Centre.

We are committed to building quality relationships with families to strengthen our community.

We provide a safe, nurturing environment, encouraging learning through play, problem solving skills, strong self worth, awareness and understanding of differences in culture, needs and abilities.

We run a flexible Childcare booking system through school terms.

In partnership with families, educators and the community, we encourage and support children to reach their full potential.
